To install MongoDB Community

https://www.mongodb.com/docs/manual/tutorial/install-mongodb-on-windows/

This tutorial installs MongoDB on Windows using the default MSI installation wizard. To install MongoDB using the msiexec.exe command-line tool instead, see Install MongoDB using msiexec.exe. The msiexec.exe tool is useful for system administrators who wish to deploy MongoDB in an unattended fashion using automation.

Install MongoDB Community Edition

Procedure

Follow these steps to install MongoDB Community Edition using the MongoDB Installer wizard. The installation process installs both the MongoDB binaries as well as the default configuration file <install directory>\bin\mongod.cfg.

Download the installer.

Download the MongoDB Community .msi installer from the following link:

➤ MongoDB Download Center

  a. In the **Version** dropdown, select the version of MongoDB to download.

  b. In the **Platform** dropdown, select **Windows**.

  c. In the **Package** dropdown, select **msi**.

  d. Click **Download**.

Run the MongoDB installer.

For example, from the Windows Explorer/File Explorer:

a. Go to the directory where you downloaded the MongoDB installer (`.msi` file). By default, this is your `Downloads` directory.

b. Double-click the `.msi` file.

Follow the MongoDB Community Edition installation wizard.

The wizard steps you through the installation of MongoDB and MongoDB Compass.

a. **Choose Setup Type**

You can choose either the **Complete** (recommended for most users) or **Custom** setup type. The **Complete** setup option installs MongoDB and the MongoDB tools to the default location. The **Custom** setup option allows you to specify which executables are installed and where.

b. **Service Configuration**

Starting in MongoDB 4.0, you can set up MongoDB as a Windows service during the install or just install the binaries.

Install MongoDB Compass (GUI)

Optional. To have the wizard install MongoDB Compass, select **Install MongoDB Compass** (Default).

When ready, click **Install**.

MongoDB Atlas (Cloud Platform) Please register

Atlas is a hosted MongoDB service option in the cloud which requires no installation overhead and offers a free tier to get started.
